## PRESS RELEASE

### **New online service by Hermes for flight search from Larnaka and Pafos airports**

Responding to the ever-growing expectations and demands of the traveling public, Hermes Airports announces the introduction of a new online system, displaying the routes available to and from Larnaka and Pafos international airports; connecting the Cypriot airports with the rest of the world.

The mentioned service is available on Hermes Airports' website, under the section "Flight Search" and the direct link:

<http://www.hermesairports.com/en/larnakahome/destination-map-lca>. Visitors to our website using this new service have the possibility to locate all the available routes offered from/to any destination around the globe, both through direct and connecting flights.

By simply adding the travel dates and desired destination via an automatic research, the system displays all the possible options or routes available to the public and transfers the user directly to the linked airline and its website in order to either to book a ticket or to further explore his/her choices, based on the airline's specific flight schedule.

With this new service, Hermes Airports website is upgraded, offering a complete platform of information to the public which includes a lot of useful information regarding departures and arrivals, options concerning the airlines and their routes and also a variety of information regarding the services offered by Larnaka and Pafos airports and material regarding the tourism product of Cyprus.
