PRESS RELEASE

Complete re-launch and upgrade of Hermes Airports' website

It is with great pleasure that Hermes Airports announces that www.hermesairports.com website has been re-launched. The new website aspires to present a modern image and a dynamic presence of Hermes Airports on the internet. It is more user friendly and provides easy and simple access to useful information regarding flights, and services provided at both Larnaka and Pafos airports and for Cyprus in general.

Also, within the framework of Hermes' support of the various initiatives for rebranding the tourist image of Cyprus, we promote the beauty and diversity of our country, providing the necessary information and links, both for entertainment and for business.

In parallel, we have started a new form of interactive communication with the public, where our website visitors will have the opportunity to connect with us and follow us on social media accounts and the [#CyprusAeropolis](https://twitter.com/CyprusAeropolis), which now has become the "digital community" of Cypriot airports. Special praise is due to Dynamic Works Ltd, whose valuable contribution and guidance was instrumental in setting the new Hermes' website.

We invite you all to visit the new Hermes Airports website and subscribe to our newsletter, which will be sent on a monthly basis and will contain additional information and various promotions.

Notes for the Media:

- Hermes Airports Ltd is the operator of the two International Airports of the Republic of Cyprus. The consortium consists of 9 shareholders comprising of Cypriot and International investors. Overall, more than seven million passengers travel through Larnaka and Pafos International Airports, annually.
- It is estimated that about 100 additional jobs are created for each additional flight arriving at Cyprus' airports. In total, more than 12,700 jobs in the tourism industry across Cyprus are sustained by the operation of Larnaka and Pafos International Airports. With an annual contribution of more than 500 million Euros to the economy of Cyprus, corresponding to approximately 3% of the Cyprus GDP, Larnaka and Pafos International Airports are justifiably considered to be among the major drivers of economic growth in the country and are acknowledged as key generators of thousands of jobs.
