PRESS RELEASE

Successful completion of the event: "Eurovision days at Larnaka International Airport"

With the enthusiastic participation of both the travellers and the public, the event "Eurovision days at the airport" has been completed with great success. Through this popular music event, Hermes Airports has sent the message that Larnaka's terminal is not just a simple building for departures and arrivals, but also a living body which shares with the public its most exciting and happiest moments.

For five consecutive nights from May 16th until May 20th, 2010, maestro, Michalis Messios and his orchestra performed the greatest Eurovision hits played live on a special stage set up in the check-in area of Larnaka International Airport.

Jon Lilygreen and the Islanders launched the opening of the Eurovision event with the Cyprus entry "Life looks better in Spring" last Sunday May 16th, just before their departure for Oslo, Norway.

As expected, the appearance of this year's Cyprus delegates stirred great enthusiasm amongst the public and received hearty applause! It should be noted that Hermes Airports strongly supports the Cyprus entry in the Eurovision Song Contest 2010 and assists the efforts for the further promotion of the song, "Life looks better in Spring".
